

## **QSED Mission**

*The way we work:*

***SMART** as a team- **S**avvy, **M**otivated, **A**rticulate, and **R**eaching Together for the ultimate goal of winning for life at work and off work.*

How- important we work in several locations together as a team. We are adaptable. We have a life outside of work. What options are BEST-FIT for both parties.

Who we work with. We work with professionals who are working in financial, healthcare, entertainment, public and telecommunication industries. We are compassionate people who listen and to all people. We work with people not just the number the people represent. We will speak your language!

What we do-we work with businesses which are looking to augment their staff. We work with professional and technical professionals who are seeking challenging employment opportunities.

We are professionals who were working with companies seeking to augment staff. We are also those professionals and technical professionals the companies were seeking. We are the team who continues to learn and engage new team members.

Learning & Listening our way through our clients & potential clients needs. We ask why.

## **QSED Vision -We Continue Get It Done!**

To serve and honor with best respect our true Founder.

Check in often with our leader.

Know the direction we are going together, are you coming with us?
